### **College-Prep Kicking Academy *for the College Scouts and Coaches***

College Football Coaches no longer recruit their kicking game specialists solely from an on-field performance. Just as College Acceptance requires a strong body of work, combining an SAT and ACT score with a high GPA, college scouts now expect to see how you perform on a Nationally Administered Performance Assessment.

San Diego School of Football partners with The National Combine Series; an objective recruiting format for both kicking-game specialists and the college coaches who recruit them.

We give the Colleges **NCAA Qualified** Student-Athletes with the Academic Expectation of Graduate School.
